

SDFAS - An International Community

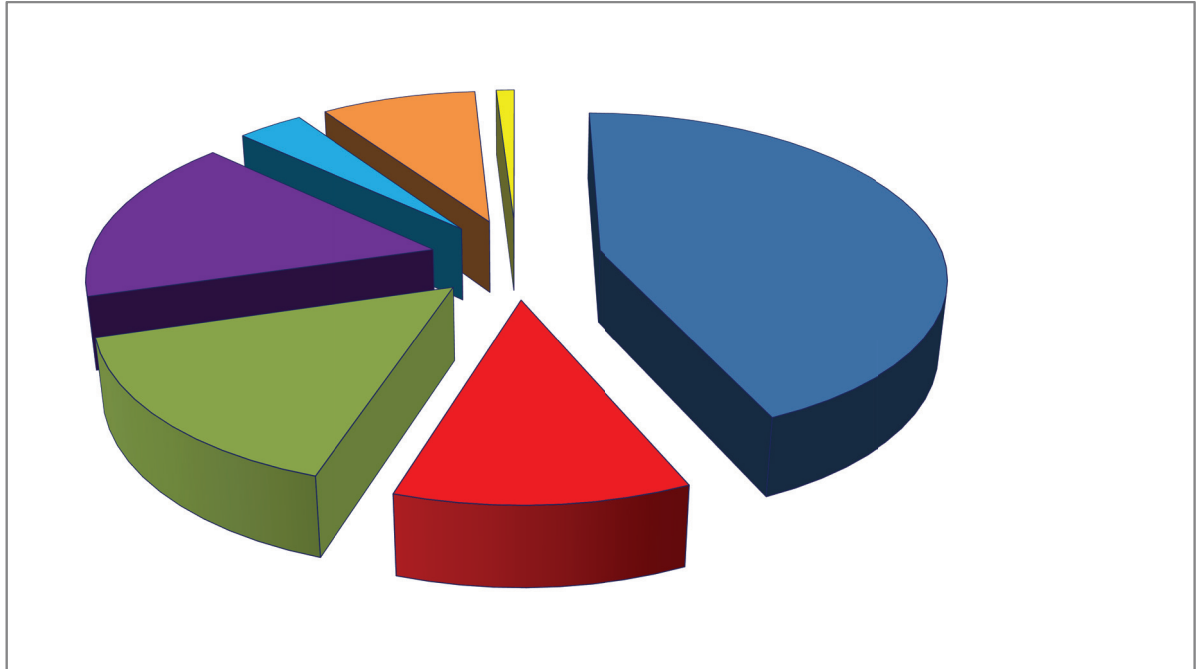

SDFAS is not just a school. It is an international welcoming community that brings together students and their families, faculty, staff, friends of SDFAS and alumni in a spirit of sharing, understanding and cross-cultural exchanges.

SDFAS students thrive in a challenging environment designed to foster autonomy and to teach them to adapt to new cultures and new languages. Students grow up in an international setting surrounded by children of 43 nationalities and speaking over 20 different languages on campus.
