10:15-10:30 **Group C: 1st & 2nd grades + PK0 (Vesna) + PK1B (Gladys)**

+

PK2B (Pauline) + PK2C (Stéphanie)

Why did the Jan. 2021 plan change from 1 day of DL campus closure to 2 days?

Outside the realm of what our school can control, the UCSD Excite Lab announced to us on 12/18/20 that as of 01/04/21 the lab will see a tripling in the volume of daily tests run (from 2,000 to near maximum capacity of 6,000). The impact is as follows:

- 1. Excite can no longer guarantee PCR test results by the following morning. The lab has informed schools on 12/18 to anticipate up to 48 hours moving forward into 2021. This does not mean there will always be a 48-hour wait. It does mean, however, that we must be prepared to wait up to 48 hours.*
- 2. SDFAS will not to risk re-opening campus before receiving back all PCR test results.*
- 3. If ever test results don't arrive until Wednesday morning January 6, we will need to*

re-open the campus that morning with a delayed start of 1 hour and 45 minutes.
